

Nu Horizons

The Darkhorse Collective

Gather round
We have plans for some profits that will
Make you proud

Gonna tear it down and build
Plants facilities, high capacity company towns

Now how you ask
Well I propose yours truly is up to the task
To colonize and bring
All of Nu Horizons into further skies

Capitalist, philosophy
Is ingrained in me
I'm meant to be so much more but
Blinded by greed
It's easy to
Lose sight of me

Hear me out
Maybe I can change it from the inside out
Burn down
All to redeem myself

Now if I may address
Any and all of your questions well please shoot away

Well judging by your silence think we're A OK

Now let's talk funds
You know we'll reap rewards when all is said and done

The profits wow, you'll be
Takin it takin it makin bank on it rakin it in for
Years to come

Capitalist, philosophy
Is ingrained in me
I'm meant to be so much more but

Blinded by greed
It's easy to
Lose sight of me

Hear me out
Maybe I can change it from the inside out
Burn down
All to redeem myself

Who's that knocking on the door
We don't take walk in apps no more
Security please come and do your job
And make sure that this boy is gone for good

But I can do almost anything
That you want me to
Ain't no average Joe
And I listened to all your music on
My space transmitter radio, so
Just let me know
I'm looking for work and I'm ready to go
I'm a real team player and I'm down with all the dirty shit
You know I won't complain and all your messes i'll be moppin it, OH!

With Joe in Tow
Numan had, one more ally for what lay ahead
But with all new beginnings
Something must end
And he left who he loved all alone in her head

I am
Destined to be
One who can change the path of history
You could
Be by my side
However instead you hold on to your pride
If not the solution then we are the problem
I beg you to think back to being at the bottom
And realize this all stems from corporate greed
I must break away hope to set others free

Well I can take you but I really can't make you
Left to me well I never would let you go
Let you go

So instead I guess this is the end
Where we part ways
But I'll never forget you no
Noooooooo
And I don't know
If you'll make it out tonight
But I can say
That I tried everything

Ever since
Humanity
Industrialized it was destined to be
We are the flame that's engulfing the earth
Taking and taking and greenwashing words
Lies!
Lies!
